

FACSDiva Levey-Jennings Mismatch

1. Preface

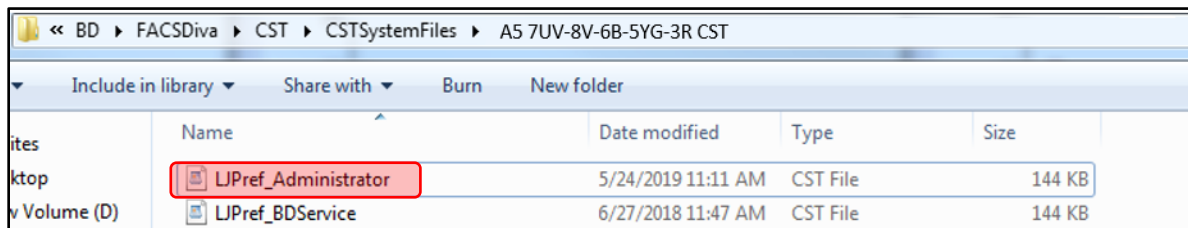

As mentioned in the “FACSDiva Configuration Modifications” instructions, it is possible to alter a configuration associated with CS&T results.

However, changes can lead to a Levey-Jennings (LJ) mismatch error when the syntax of the configuration file no longer match the LJ file. The following error appears when reaching the CS&T Performance Tracking tab:

2. Correcting a LJ Mismatch

- Navigate to:
 - ✓ C:\Program Files\BD FACSDiva Software\CST\CSTSystem files (**FACSDiva 6/7**)
 - ✓ C:\ProgramData*BD\FACSDiva\CST\CSTSystemFiles (**FACSDiva 8**) **hidden folder*
- Open the desired configuration folder.

- Create a backup of the **LJPref_Administrator.cst** file. A file incorrectly modified could lead to FACSDiva software corruption/errors.
- Right-click the file and click edit (Notepad).
- Exit and save changes to the file.
