Education . Resources . Support

## Your Ultimate Flow Cytometry Learning Destination

WORK-FLOW is a premier educational ecosystem dedicated to advancing knowledge in flow cytometry. Our comprehensive program is designed to cater to both beginners and experienced professionals, offering structured learning, valuable resources, and expert guidance.

With our interconnected products and services, we provide a seamless learning experience, whether you are building foundational knowledge, preparing for instrument training, engaging in continuing education, studying for an exam, or troubleshooting.

- ✓ **FlowEssentials** – Learn the fundamentals of flow cytometry
- ✓ **FlowTech** – Expand your skills with specialized technologies
- ✓ **FlowAssays** – Explore key applications and techniques
- ✓ **FlowHub** – Access a catalog of resources to support your learning journey
- ✓ **FlowEval** – Refine and assess your understanding through interactive testing
- ✓ **FlowPublic** – Browse a free repository of technical insights

Our courses can serve as general knowledge, a refresher for advanced users, or a prerequisite to hands-on training. Additionally, our resources and testing platforms support continuous education and certification preparation, while our repository offers technical guidance.

WORK-FLOW also offers data assessment, analysis training, onsite instrument training, operation logistics, process improvement, mentoring, and consulting.
